ENGLAND LACROSSE

Phase 4 Guidelines in Summary

Understanding your club's insurance position is essential and you should liaise directly with the club's insurers and insurance advisers before the return to play or re-opening of the clubhouse process begins, to ensure that appropriate insurance is in place and to ascertain whether any additional steps are required.

EL Phase 4 is not 'operation as usual' (that's EL Phase 5) but you will be opening up your facility to more people than you may have so far.

Before all lacrosse activity

- All participants should come changed and ready to play.
- Participants should enter the site and prepare their personal equipment whilst maintaining social distancing.
- Masks should be worn when entering and leaving the site
- Temperature checks should be administered on all participants prior to play.

During all lacrosse activity

- Lacrosse activity must take place **outdoors only**.
- Players should **use their own equipment**.
- **No one should handle the ball** use your sticks to pick up the ball. If anyone does handle the ball, they should sanitise their hands and the ball immediately.
- All participants should **sanitise their hands** prior to the start of the activity.
- **Hand sanitiser** should be used at all breaks in activity and prior to consuming any food or drinks. If a player is wearing gloves there is no need to remove them in the breaks and gloves should be sanitised.
- Players should refrain from **spitting or rinsing out their mouths**.
- In line with current UK Government guidance. Individuals should bring their own food and drink for practice. Water bottles or other refreshment containers should not be shared, and should be clearly named

ENGLAND LACROSSE

After all lacrosse activity

- All participants should **sanitise their hands** after the completion of activity.
- Participants should exit whilst **maintaining social distancing**.
- Social gathering after the activity will be allowed **in line with current UK Government guidelines on hospitality and social distancing** must be maintained.
- One club representative/volunteer should be responsible for **collecting and disinfecting** any shared equipment (Balls, Goals)
- **Regular cleaning of equipment and the facility should take place**, particularly between one group finishing, and the next group starting.
- Clubs should encourage all participants to **report any infection of their household** to the NHS Test and Trace system.
Clubs should support NHS Test and Trace efforts **by keeping a record of all participants in any lacrosse activity for 21 days** and support NHS requests for data if needed.

Additional advice for socially distanced aware game adaptations

- **There will be no draw or faceoff in games.** The game will start with possession by one team, this will alternate each quarter and when a goal is scored the team conceding start with possession.
- **A 'hygiene break' should take place every 15 minutes, at the end of each quarter.** the ball should be cleaned with an anti-bacterial wipe (conforming to BS EN 14476) and all participants' hands are cleaned using a suitable sanitiser. This routine should also be followed at the start of any drinks break. The responsibility for sanitising the ball during the match will lie with the coach/organiser, not the officials.
- **Players to sanitise their stick and personal equipment** when leaving the pitch.
- **Social distancing** must always be maintained including **during goal celebrations, drinks breaks and tactical discussions.**

ENGLAND LACROSSE

- **Spectators** are not permitted (as of 29.03.21)
- **Umpires/Referees** should refrain from **any contact with the ball.**
- **Indoor facilities** including changing rooms cannot open (as of 29.03.21), although toilet facilities can be accessed. Indoor facilities can be used for through access (following COVID guidelines). Wherever possible, people should come ready to play lacrosse.

Additional Advice for Clubs & Club Representatives

Preparation of the lacrosse venue

- Multiple team tournaments at this stage are not permitted, this will be revisited at the next stage April 12th.
- Phase 4 of the EL Roadmap: Club representatives should ensure that their facility is compliant with current UK Government legislation including legislation and guidance related to COVID-19. A risk assessment should have been completed and risk mitigation measures put in place and monitored.
- On any day of the activity, club representatives and volunteers should ensure that all COVID-19 measures are in place according to the club operating and safety plans, whilst maintaining social distancing – developing your own 'opening up checklist' is helpful for this. This should include:
 - o Set-up of public health operating procedures and access signage.
 - o Set-up of lacrosse facility including all ground safety requirements.
- The duty of care which the club already owed remains and therefore other matters such as First Aid must continue to be provided. First Aid

ENGLAND LACROSSE

equipment (including AEDs where available) and suitable PPE for First Aid must be made available. Advice on First Aid during the COVID pandemic is available from St John Ambulance.

- Clubs should make hand washing facilities and/or hand sanitiser available for all site users.
- Clubs must have entry and exit, and parking arrangements to venues that ensures social distancing can be maintained and implement traffic flow systems where possible and appropriate.
- Clubs must outline socially distanced areas for teams, officials, and spectators.
- Clubs must ensure that all accessible provision within the site and the facility are available.

Additional Advice for Children's Activity

- Parents /carers should drop off and collect participants via a protocol that maintains social distancing.
- Where participants cannot provide their own individual equipment, we recommend numbering equipment such as balls, so that each participant has a specific numbered ball and/or cone and uses that for the entirety of the session to minimise sharing of equipment where possible.

Additional Advice for Coaches

These measures cannot cover every eventuality and coaches must conduct a risk assessment, ensuring appropriate measures are put in place to keep participants and coaches safe.

ENGLAND LACROSSE

Playing and coaching lacrosse in itself carries some degree of risk and whilst being mindful of the guidelines regarding COVID-19, coaches should not lose sight of the normal safety rules or safeguarding standards relating to playing and coaching lacrosse which continue to apply and must be complied with (DBS, safeguarding, First Aid etc).

- Coaches should make themselves aware of and abide by, all guidelines set out by the UK Government, the venue and EL regarding use of facilities.
- It is the coach's responsibility to ensure that they coach players in a safe environment and follow relevant guidelines.
- Coach should explain the safety guidelines of what is expected pre, during and post session including what the player is expected to do to maintain compliance with social distancing guidelines and all other health and safety guidelines.
